

Health, Safety & Environment Policy

Health, Safety and Environment (HSE) is an essential element in all CleanMax activities.

CleanMax Solar's vision is to be a sustainability partner of choice for corporates.

We believe, HSE performance is key to ensure sustainable business and is an integral part in our business decisions. According to us, all injuries, environmental incidents and losses are preventable and we emphasize on the importance of our HSE code of conduct while dealing with stakeholders.

We encourage everyone to continuously improve standards of the Health, Safety & Environment to attain and exceed benchmarked standards.

CleanMax Solar's Health, Safety & Environment policy aims

- Safe and healthy working conditions for the prevention of work-related injury, ill health and well being of all concerned parties/stakeholders.
- Developing knowledge and skill among employees, contractors/and vendors to demonstrate their responsibility in achieving safety practices.
- Continuously striving to identify, assess and manage our occupational hazards /risks through regular monitoring and management review along with consultation and participation of workers or representatives in the process.
- Continuously improve our HSE performance by identifying opportunities, setting goals & objectives, maintaining standards and providing adequate resources.
- Eliminating, minimizing or controlling the environmental aspects and their impacts as well as occupational health safety hazards and risks.
- Complying with required all statutory and other codes of practice requirements that concern health, safety and environment.
- Ensure communication of HSE policy and relevant standards to all stakeholders.
