

## CleanMax Inaugurates 400 MW Wind Solar Hybrid Project in Gujarat

31 July 2023, Mumbai: CleanMax Enviro Energy Solutions, Asia's leading C&I renewable energy company inaugurated a 400 MW wind solar hybrid project in Babra, Gujarat, in the esteemed company of clients and employees involved in the construction of the project.

Representatives from Hubergroup, Bayer, Gerresheimer Glass, Navin Fluorine International, Calibre Chemicals, BASF, Piramal Pharma, Atul, Gujarat Fluorochemicals, Macleods Pharmaceuticals, NOCIL, Hero MotoCorp, Plastic Omnium, Hindalco Industries, Munjal Kiri Industries, Ascenso Tyres, MG Motor, Larsen & Toubro, L&T MHI Power Turbines, APM Terminals, Nestlé, Finolex Industries, RR Kabel, Schott Glass, Banco Aluminium, and Welspun Specialty Solutions graced the occasion.

This is the first project to have the latest 3.3 MW Envision turbines. This project was completed within 16 months of inception, and it was ensured that only unutilized commercial parcels of available land in the area be purchased/leased for this project. The total area of the project is around 800 acres. This project will account for 741,440 metric tons of CO2 equivalent abatement per annum.

Kuldeep Jain, Founder & Managing Director – CleanMax Enviro Energy Solutions Pvt. Ltd. said, “We are excited to achieve completion of the largest wind-solar hybrid farm for the C&I sector. It has been a great learning experience for the entire CleanMax family, and I am proud of the way we have come through and delivered. The hybrid farm will contribute immensely to the country's energy transition goals by helping industries become sustainable. CleanMax has always been a pioneer in adopting new technologies. To ensure best results for our clients we are installing best in class systems for optimum generation which in turn will make businesses sustainable.”

Nikunj Ghodawat, Chief Financial Officer - CleanMax Enviro Energy Solutions Pvt. Ltd. said, “this is a one of the largest RE parks in the country dedicatedly serving C&I demand and further demonstrates CleanMax's ability to finance, execute and deliver on its RE commitment to its customers in a timely manner.”

Tejus AV, Chief Commercial Officer - CleanMax Enviro Energy Solutions Pvt. Ltd. said, “It's a proud moment for all of us at CleanMax with this capacity addition because for the first time any IPP has demonstrated tower manufacturing combined with logistics, I&C capabilities in C&I open access market. Team has done fantastic job helping customers in their carbon reduction journey.”

Col. Narendra Verma, Chief Operating Officer (Utility Scale RE Projects) – CleanMax Enviro Energy Solutions Pvt. Ltd. Said, “CleanMax has again demonstrated and proven its capabilities and customer focus by timely delivery of its 400 MW wind solar hybrid project in the state of Gujarat, the highest by any C&I developer in the year. The speedy execution and commissioning of the project has set a new benchmark for the industry and established a proven path for future projects in line with our aspiration to be the partner of choice for C&I customers in India and abroad.”

**About CleanMax:** Founded in 2011, CleanMax is one of the largest providers of green, clean energy to corporate consumers in Asia. Headed by Managing Director, Mr. Kuldeep Jain, CleanMax has national presence and five offices across India; and offices in UAE and Thailand. CleanMax provides green energy, green energy attributes to MNCs and large corporates, helping them become sustainable.

We have helped 350+ corporate consumers to adopt renewable energy in their operations. We manage 1.6 GW+ of operating wind and solar projects and supply over 3076 GWh of green energy every year (equivalent to powering 8.55 lakhs households for a year) and helping offset about 2.5 million tons of CO2 every year.
